CONTINUOUS COMFORT

The XC16 operates at a lower speed most of the time for maximum comfort and energy savings. During periods of extremely hot weather, it ramps up to a higher speed to increase cooling power.

COMFORT INNOVATIONS

MULTI-STAGE OPERATION

Responding to changing conditions, the XC16 adjusts to maximize energy savings—operating at lower speed most of the time, and ramping up during periods of increased cooling demand. This multi-stage operation also translates to enhanced humidity control.

HUMIDITROL®-COMPATIBLE

The Humiditrol® whole-home dehumidification system is designed for use with Lennox® cooling equipment. It improves air quality and overall comfort by removing excess humidity from your home.

MONEY-SAVING EFFICIENCY

With efficiencies of up to 17.00 SEER*, the XC16 can help save you hundreds of dollars per year in energy bills, compared to an older air conditioner.

EFFICIENCIES OF UP TO

17.00
SEER*

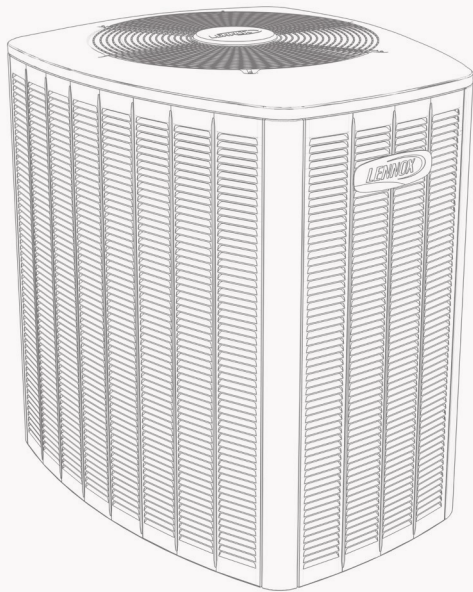

The XC16 has earned the ENERGY STAR® certification, which means it meets or exceeds guidelines set forth by the U.S. Environmental Protection Agency.

PERFECTLY QUIET

As quiet as it is efficient, the XC16 keeps operating sounds at a comfortable level. The only thing you'll notice is how great your air feels.

DURABLE DESIGN

Lab tested to ensure it can perform in the harshest conditions, the XC16 is designed to keep you comfortable for years to come.

PEACE-OF-MIND PROTECTION

The XC16 comes with a 10-year limited warranty on the compressor and a 5-year limited warranty on all remaining covered components.**

*The cooling efficiency rating for air conditioners is Seasonal Energy Efficiency Ratio, or SEER. The higher the SEER, the better the energy performance, and the more you save.

**Covered components may be eligible to receive a 10-year warranty. Online equipment registration at lennoxregistration.com is required within 60 days of installation (except in California and Quebec) or Lennox' base warranty will apply.
