

THE BENEFITS OF SETTING UP A

Service Agreement

01 Lower Energy Bills

With regularly scheduled maintenance, your HVAC system works at its optimal level, decreasing the impact of monthly utility bills.

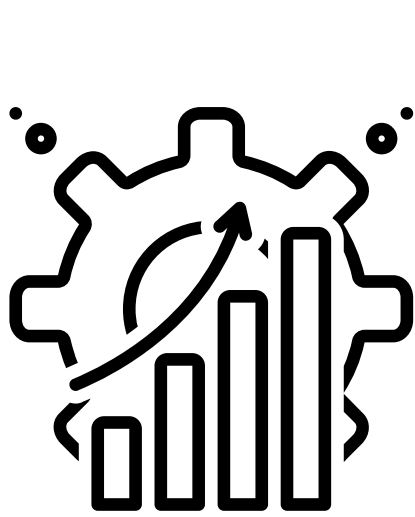

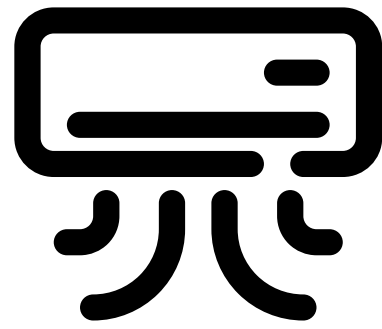

02 More Comfort

With better efficiency comes improved comfort on hot and cold days. Ease your stresses and worries, by setting up a service agreement to maintain your AC and heating systems.

03 System Longevity

Routine maintenance ensures that your HVAC system lasts years longer than a neglected system. Any repairs that may be needed can be caught on early, preventing further potential damage.

04 Better Efficiency

A system that has better efficiency comes with routine HVAC maintenance. A service agreement allows for more regular service calls, which keep your system in its best-working condition.

05 Peace of Mind

No need to worry about a loud noise or out of character performance from your HVAC system. With a service agreement, maintenance is much more accessible, allowing for repairs to be made before issues become a bigger problem.

Taunton Trades is your trusted heating, ventilation, air conditioning and installation contractor. We proudly serve the Durham and GTA region. Call us now to set up your service agreement.
