FURNACE?

---

---

The cost of an electric furnace is typically lower than a gas furnace.

Electric furnaces are typically more quiet and durable.

Electric furnaces can be installed more quickly than gas furnaces.

Electric furnaces require less maintenance and are safer due to limited risk of carbon monoxide exposure.

Natural gas is a more popular choice but may not be available in all regions.

While electric furnaces are typically more affordable, gas furnaces cost less to operate.

Gas furnaces heat up your home quicker than electrical furnaces.

Natural gas is much more environmentally friendly than electric furnaces, which often use coal.
